

For the benefit of enthusiasts interested in steam engines generally-I have now been able to produce a selection of instructions for my models as shown in the Treatise-plus others recently built. I also carry out photo-copies of original Meccano models from manuals and leaflets and can do some models not listed here-just quote the model and source-whether old manual, leaflet, or from Meccano Magazines. Prices include UK postage but extra at cost for overseas.

- No1. Steam operated traction engine with Mamod SP2 unit and shown on page four of the Treatise. Fully operational. PRICE: £3-00p
