Included*

Boys, have you seen the new Meccano Motor Car Constructor Outfit? If not, call on your dealer to-day and ask him to show it to you.

The parts contained in this splendid Outfit are strongly made and beautifully finished. They enable different models of sports and speed cars to be built, each strikingly realistic — a masterpiece of design and workmanship. In addition, the Outfit contains an extremely powerful motor, which gives the models a run of 150 ft. on one winding.

This Motor Car Constructor Outfit is the latest Meccano development and it is sure to make an instant and irresistible appeal to all boys. Ask your dealer to sell you more about it.

# Boyhood's Best Days — Building With Meccano

*A fine Meccano model of the "Tower Bridge" in London*

## A Thousand Toys in One

If you want to have the happiest possible boyhood, be a Meccano model-builder. There is no other hobby in the world half so wonderful or half so fascinating.

A Meccano boy is able to build hundreds of splendid working models with the greatest of ease. One day a crane, the next day a fine replica of the famous Tower Bridge (illustrated above), the day after an aeroplane, or a motor car or a lathe or loom. Day in and day out there is always something different to build, some new thrill to enjoy.

Meccano models are real engineering models because they are built with real engineering parts in miniature—Nuts and Bolts, Girders, Plates, Gear Wheels, Pinions, Cranks and scores of others that can be used over and over again to make hundreds of different models.

Think of the endless fun you could have with Meccano and make up your mind to get an Outfit at the first opportunity!

*Ask your dealer for the latest Meccano price list or write direct to Meccano Ltd., Old Swan, Liverpool, for a copy.*
