2 NEW Dinky Kits

to start 1973.

Start the year off right with 2 fabulous additions to our range of 15 Dinky Kits. Dinky models the kids build themselves. Not plastic and glue, but a real metal Dinky Toy that can be easily constructed, then taken apart and put together again perfectly. No glue, just screw the parts together.

Ferrari 312/B2 F1 racing car. No. 1012
Detailed engine. Wide tyres and a set of super-detail decals.

Hawker Hurricane Mark IIc Fighter. No. 1041
The famous 2nd World War fighter plane. Ratchet wheel behind cockpit makes realistic machine gun noises. Retractable undercarriage and choice of super-detail decals.

Starlet Lockstitch/Metal Sewing Machine.

Just like Mum's, but much easier to use. Lock-stitch means what it says – the stitches won't pull out. Girls can make lots of lovely things with Starlet. And it's all metal. So it's strong. And it has a table clamp. So it's safe.

2 new models. Hand operated or electric. The electric model has a 3-cell battery box and foot switch.

Apollo Astrolite.

It whirls, it whistles and it lights up. Using centrifugal force the Astrolite Satellite Spinner is a fascinating toy. And a very successful one. So order now.

No. 967 Muir-Hill 2WL Loader with Trencher attachment.

No. 683 Chieftain Tank, Revolving turret, elevating "shell" firing gun and flexible tracks.

No. 654 155mm Mobile Gun. Flexible tracks. Fire 'shells'.

No. 442 Land Rover Breakdown Vehicle.

No. 924 Aveling-Barford "Centaur" Dump Truck with simulated hydraulic tipping action.

Dinky Fire ahead for 1973.

No. 284 London Taxi with driver and opening passenger doors.

No. 915 A.E.C. Tractor Unit with Flat Trailer.

No. 718 Hawker Hurricane Mark IIc with retractable undercarriage and finger-operated gun-firing noise.

No. 281 Military Hovercraft with machine gun and radar scanner.

No. 676 Daimler Armoured Car with revolving turret.

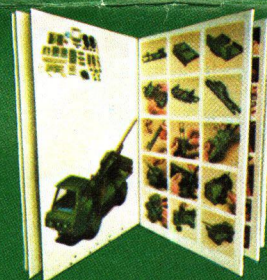

No. 612 Commando Jeep with driver and swivelling machine guns.

MECCANO®

2 NEW

ARMY MULTIKIT®

Meccano Multikits are completely new. Exciting, realistic models that kids will go crazy over. There's the Army Multikit with 10 military models. And the Highway Multikit with 8 commercial vehicle models. Both in exciting, eye-catching packs, with a fabulous, new full colour step-by-step

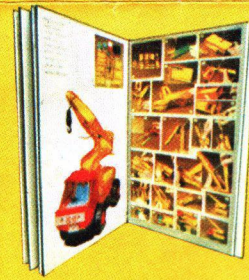

Join the Meccano moneymakers.

MULTIKIT®

KITS!

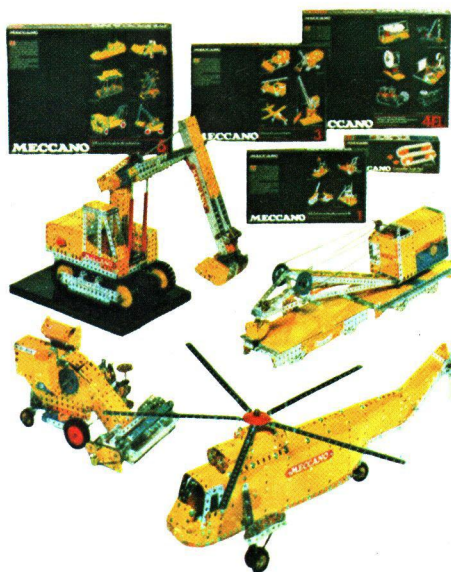

HIGHWAY MULTIKIT®

photo instruction book. The parts are packed in handy see-through tool rolls. Both Multikits contain a realistic metal cab, four wide wheels and re-usable stickers. The Army Multikit also has working guns and tank tracks. And the Highway Multikit has working crane parts and tipping mechanism.

MECCANO® for '73 Greater than ever.

The world's most famous and most popular construction sets are better than ever this year. They are totally compatible with Multikits, so, as well as building lots of exciting models, the kids can also use them with Multikits. And, of course, there are power units, electronic and motorised sets too.

Big pieces for even bigger sales.

Plastic Meccano is still gaining in popularity. Colourful packs, strong, big parts, easy for small children to handle. Plastic Meccano is a sales winner you can't afford to miss.

Pocket MECCANO® For pocket- money sales.

Pocket Meccano is an ideal starting point for youngsters. They can make 25 different models and it'll lead them on to bigger things. And bigger profits for you.

A practical model for every home.

Meccano clocks. They're real, working time-pieces. So it's not just the kids who'll be interested. All the parts come complete in each kit. No motor – a real clock movement. Two models – striking and non-striking.
