TODAY'S MECCANO®

POWER DRIVEN REALISTIC MODELS

Today's Meccano features easy-to-follow manuals, compact parts storage trays, electric motors and chunky black plastic wheels.

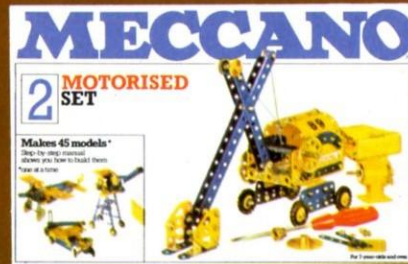

The rationalised Standard range comprises sets 1 to 5, 2 extension packs*, a Powerpack and, of course, the famous No. 10 set in its multi-drawer wooden cabinet.

A full range of accessories is available including electric and clockwork motors and extra parts. A range of selected packs of extra parts that are most popular with the average Meccano modeller will save you stocking over 300 separate parts, but of course the enthusiast will continue to be catered for with his more specialised parts being available in bulk trade packs. Your Meccano representative will supply further details.

*An Extension Pack S will convert set 1 or 2 to a No. 3 (owners of set 1 will also need a Powerpack). An Extension Pack L will convert set 3 or 4 to a No. 5.

TODAY'S MECCANO®

THEME SETS

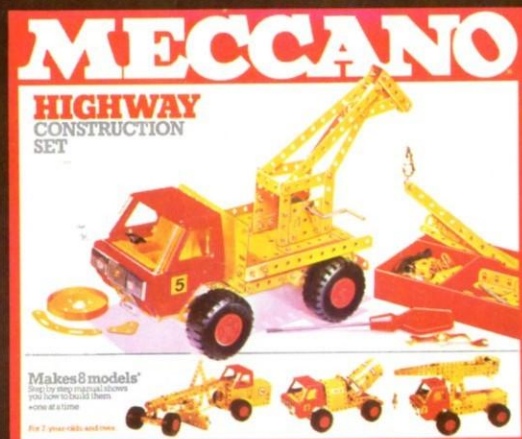

Versatile theme sets that add an extra touch of realism to Meccano for instant child appeal.

This year we have added two super new sets to the range - SPACE 2501 and MECCANOIDS

A variety of space craft and space stations can be built from this new space set which features a pre-formed canopy, re-usable stickers, two astronaut figures and several harmless firing missiles.

The Meccanoids motorised set builds various creatures - hulking dinosaurs, clanking robots and crawling spiders to name but a few.

Versatility is the word for the theme set range - Meccano can build anything from spotter-planes to space stations, catering for a wide range of children's interests.

1979's BEST SELLERS

09531 Space 2501 Set

Pack Qty. 6

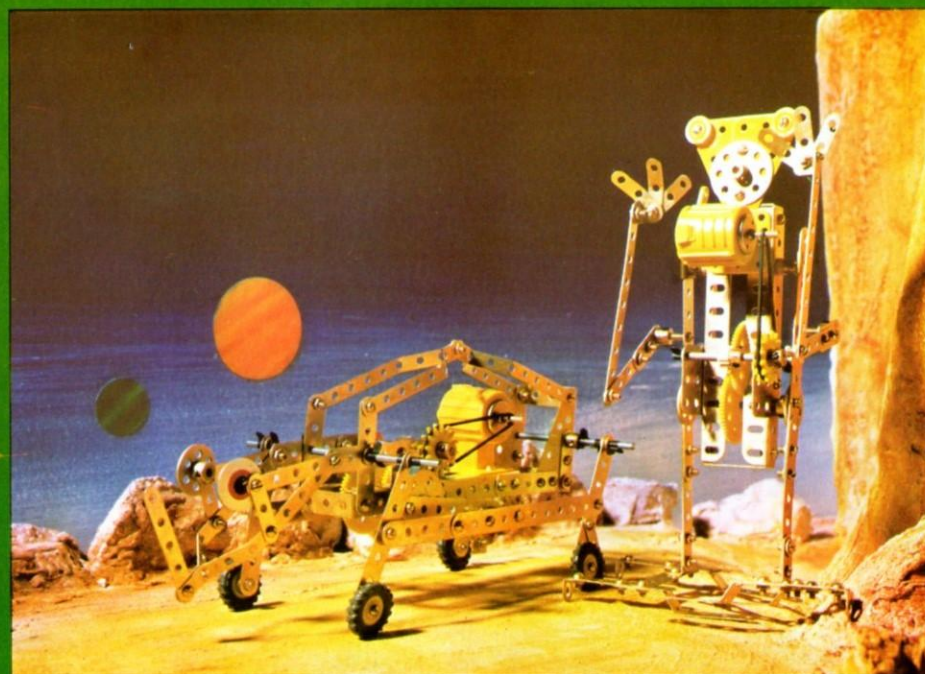

SPACE 2501

- designed for the young newcomer to the Meccano system
- a top interest theme - 1979 will see even more Space publicity and feature films
- big parts giving easy construction
- easy to follow manuals showing how the child can make a wide variety of space age models
- in addition to large single models, sufficient pieces are provided to build pairs of models for space combat.
- 2 large harmless missile projectors and 2 rocket launchers
- 2 astronauts, re-usable stickers, nose cones, canopy and rocket boosters bring life and realism to the models

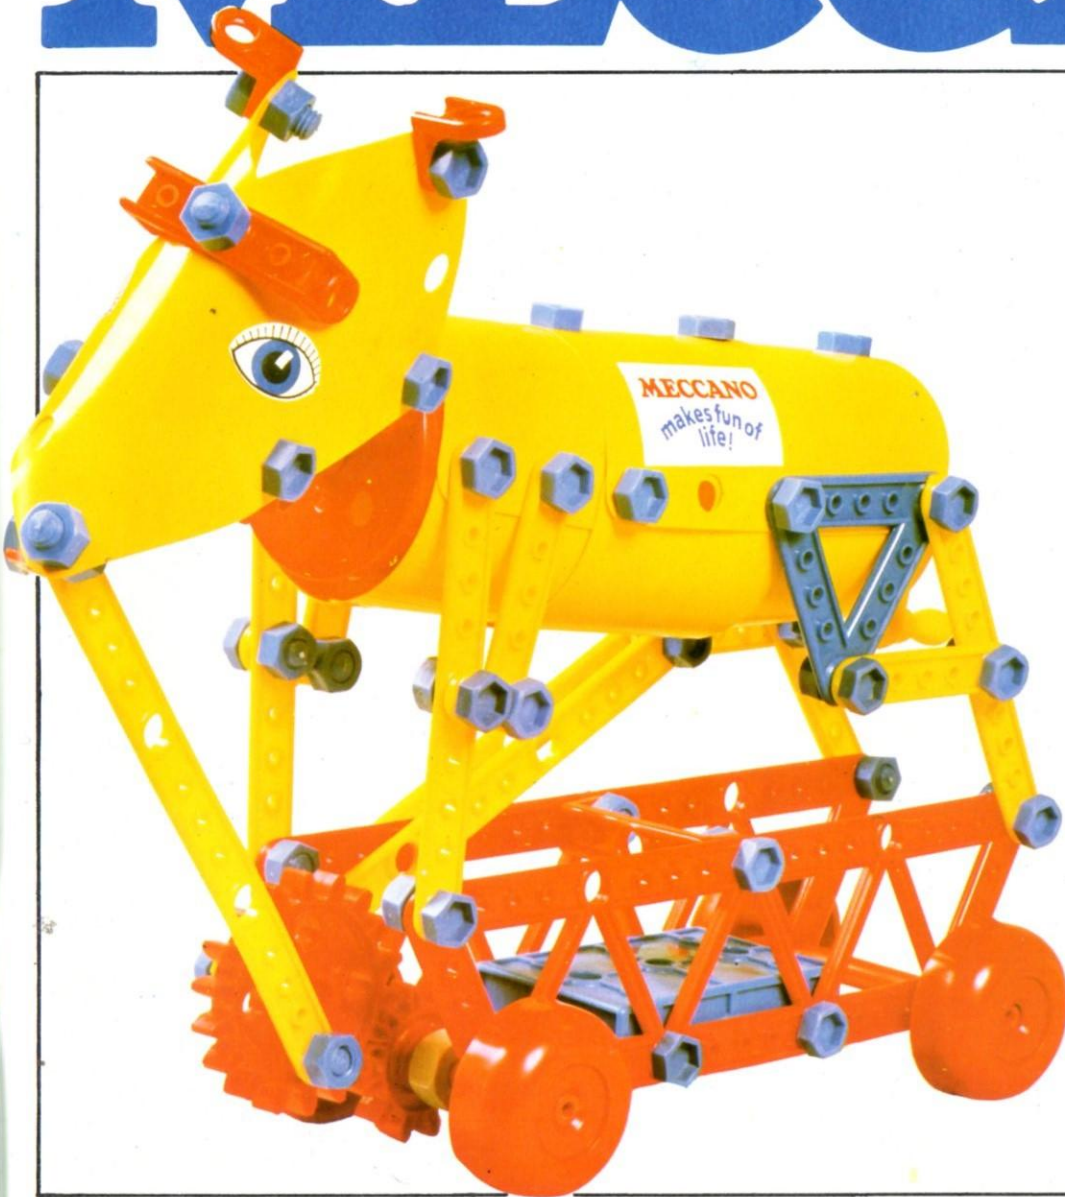

MECCANOIDS

- seeing is believing, moving Meccano meccanoids! A breakthrough in Meccano modelling technology
- incredibly realistic movements have been achieved by the intriguing use of the motor and gearing system
- easy to follow manual shows how
- a set which will intrigue the novice and enthusiast alike
- re-usable stickers add life-like appeal to finished models

09530 Meccanoids Motorised Set Pack Qty. 4

JUNIOR MECCANO®

Available shortly in two new sets, real Meccano pieces in plastic that build big models fast. These new sets also feature chunky plastic wheels and a sheet of reusable stickers to add even more play appeal to this versatile system.

Junior Meccano—an introduction to the standard Meccano system is the new, updated plastic system which has been improved and repackaged in attractive new boxes packed with on shelf appeal and sales potential.

Prima

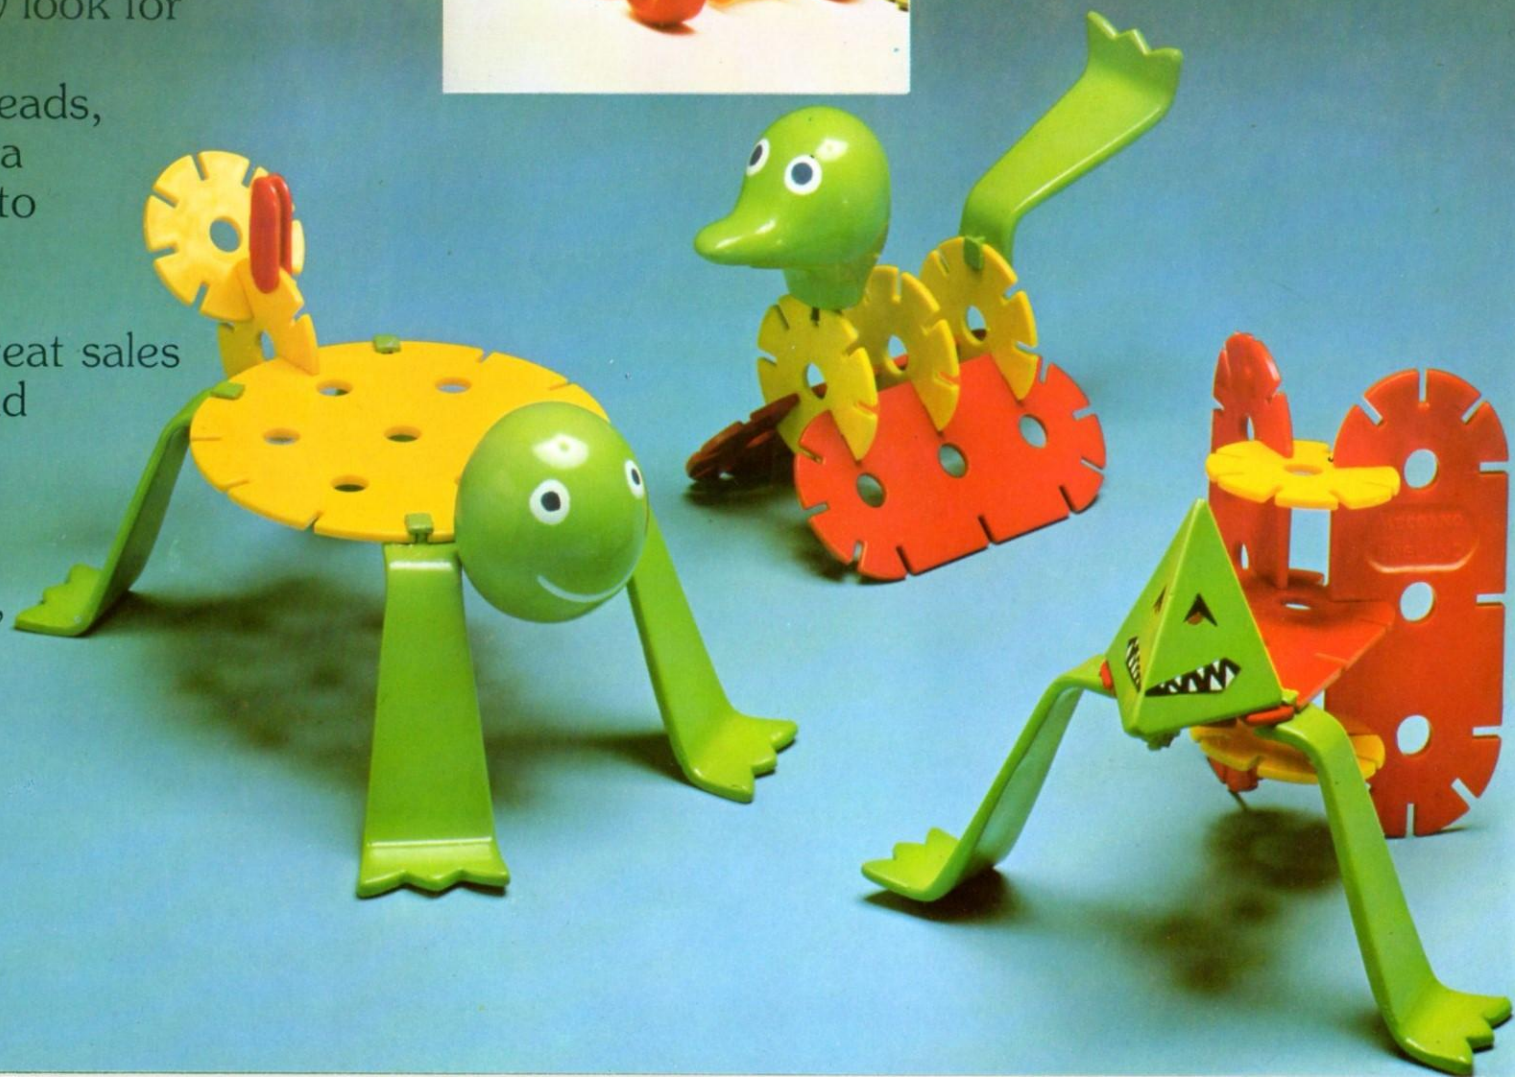

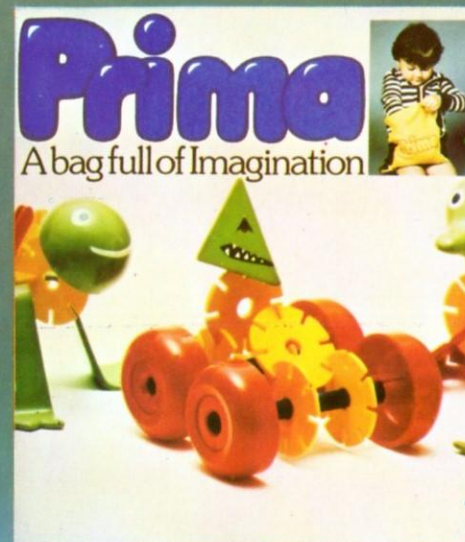

A bag full of Imagination

For 1979 a completely new look for Prima.

Animal, bird and monster heads, legs, wings and tails bring a whole new fun dimension to this safe and easy plastic slot-together toy.

Compact new pack has great sales appeal, is space saving, and incorporates a draw-string bag for keeping the parts together in the nursery.

New Prima makes models, makes monsters, makes fun!
