MECCANO

THE PASSPORT TO ENGINEERING WONDERLAND

Happy Hours and Heaps of Fun

THIS keen Meccano Boy is building a working model in steel of a Coal Dump. In imagination he sees the coal field and all the wonders of its machinery, as he builds up piece by piece this fine structure with its rising and falling platform, its truck, its coal chute, and all the other working parts.

Boys, can you think of any finer hobby than this? With Meccano you can build scores of real engineering models—Cranes, Bridges, Towers, Railways, Lathes for real wood turning, Machines of various kinds, Monoplanes, Ships, anything you like.

Get a Meccano Outfit and strike the trail of Happy Hours. You can begin to build at once; no study required. Each Meccano Outfit is complete with all necessary building parts, also big illustrated Instruction Book. *Be sure you get Meccano.*

COMPETITION

\$1,000.00 IN PRIZES.

SEND FOR FREE BOOK No. 2.

Tells you about Meccano in bright, simple language. Interesting reading all the way. Plenty of pictures. Write for it to-day.
