

More New Models for you to build!

More New Models Leaflet No. 1

This leaflet is supplied free to Members of the Meccano Guild and other Registered Owners of Meccano Outfits.

Model Building the Modern Way

The constructional details of the models shown in this leaflet are explained by means of photographs and line drawings. There are no tedious instructions to read through and you will find that it is much more fun building by this new method — rather like a real engineer working from his 'blueprints'! Once you have got the knack of reading the drawings, you will find the assembly of the models quite easy to follow. Generally the particular parts used in the assembly of a model can be identified simply by looking at the illustrations, but where the identity of a part may not be quite clear, its Part Number is indicated in the model illustrations in **RED**.

NMI Mobile Light Crane

This model can be built from Outfit No. 1 plus the following additional parts:

1 of No. 11	15 of No. 37b	1 of No. 176
1 — — 22	3 — — 90a	1 — — 188
