AWARD WINNING...

Build-O-Fun™

Here are only a few examples of the hundreds of different, creative toys that you can slide together from the four simple pieces that make up your Build-O-Fun set.

The picture on the right shows how to slide the wheels in place so they really turn! On the left, you see how to make a coupling so that you can pull a trailer that will go around corners!

See how many different toys you can build!..

HAVE FUN!
