

SPARES FOR YOUR GIRDER AND PANEL BUILDING SETS and BRIDGE AND ROADWAY SETS

All Girder and Panel Building Sets contain sufficient parts to construct the buildings shown in the Planning Book. Additional sets, always available at your retailer, may be used with your present set. Unusual and impressive buildings can be constructed by combining foundations and other parts of the sets. If, however, you want only some extra parts, we will, as a service, supply these directly from the factory if you cannot obtain from your retailer.

		Price s. d.		Price s. d.
