

# Hello Boys and Girls: *Here's* FUN!

**You can Build  
69 Toys  
All for 50 cts.**

Here is a toy that will give hours of amusement—won't break—tickles the boys—girls as well.

**Think of it.**—You can make 69 toys from the models shown on this and the other side of this sheet; and then you can invent others from pictures you see in books and magazines. This is the biggest value for the money that you will find in any store. It makes a nice birthday present, and is fine for boys and girls for Christmas time. When they have built all the models they can think of, they can add to this set by getting the Mysto Erector. So

**Two Bright Colors**  
of  
*The Mysto*  
**ERECTOR**

(The Toy That Resembles Structural Steel.)

**Builds 300 Models**

**Some 23 feet long—Some 8 feet high**

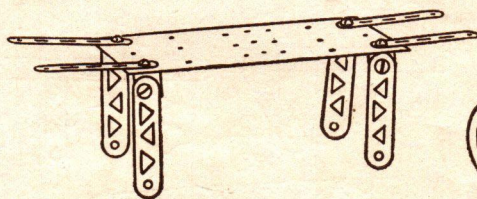

This handsome book is filled to the brim with pictures of models that boys can build from the Erector sets. This toy has real steel girders like elevators, railroads, derricks, bridges, etc. Toy dealers sell the Erector.

**Models at Right.**—The pictures above at the right illustrate models Nos. 62, 63, 64, 65, 66, 67, 68 and 69. 61 other models are shown on reverse side of this sheet.

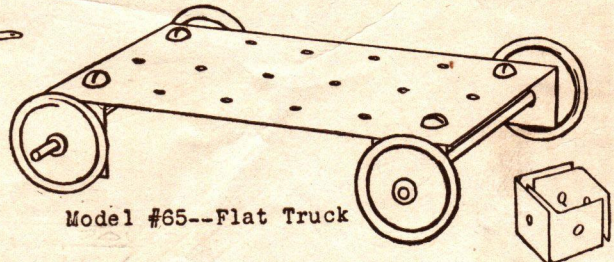

This set which you have purchased works together with bigger sets, so that all the pieces you now have can be used interchangeably. The prices of these bigger sets run as follows: \$1, \$2, \$3, \$5, \$7.50 \$10, \$15 and \$25. Be sure to send for this booklet, and also ask about our Prize Contest. Boys win from \$15 to \$1 each in prizes. There are over twenty-five prizes this year.
