

TO ENLARGE YOUR SETS. No doubt as you experiment and design your own models, you will require extra parts, either to enlarge your smaller set, or to supplement your larger set. You may purchase complete Accessory Sets, or you may purchase separately any of the Ezy-Bilt parts. Further to the parts incorporated in Sets 1-5, there are, of course, the larger parts and more extensive range of components which belong to the large Ezy-Bilt Sets 6, 7, 8. But even these parts, which include such useful items as crank-handles, pulleys, road-wheels, spanners are so designed that they will combine perfectly with your Sets 1-5. Speak to your Ezy-Bilt dealer about these extra parts. He will supply any information you seek, and illustrate to you how these larger Ezy-Bilt parts can become exciting additions to your equipment.

Ezy-Bilt sets are made to withstand rough handling and can be used over and over again to make an almost endless range of models. They are made by Ezy-Bilt Ltd. who guarantee the materials and workmanship of Ezy-Bilt sets. Assembling the parts is very easy because they fit together accurately. The instruction books, supplied with each set, are simple to follow. There are no rules to learn and no special tools required. Just build your model the Ezy-Bilt way. All parts are interchangeable with other construction sets of this type.

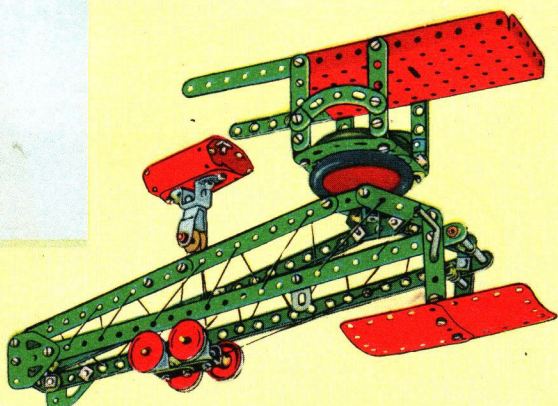

EZY-BILT Spare Parts

Ezy-Bilt construction parts are sturdy made of steel, enamelled brightly in red and green. . . or shiny brass. There is a wide variety of plates and strips, curved strips, angle brackets, wheels, pulleys, etc. Ample nuts and bolts are included in each set, and are shaped to be easily handled. Ezy-Bilt sets are made to withstand rough handling and can be used over and over again to make an almost endless range of models. EZY-BILT

The Master Toy

A Traversing Crane is a pleasure to build and use. All the necessary parts are in the No. 2 Set, one of the smaller sets most suitable for those boys starting as constructional hobbyists.

This Aeroplan, with rotating rubber wheels, is only one of the fine 84 models that can be built with a No. 3 Ezy-Bilt Set. There are 63 pieces, including a set of rubber tyres, plus bolts and instruction book, in this set.

Here is a 3 wheel, rubber tyred, Delivery Van that can be made with parts from a No. 4 Ezy-Bilt Set. Can be used as a Trailer for towing behind trucks. It's one of the great range of Ezy-Bilt Master Toys.

A No. 2 Ezy-Bilt Set — one of the smaller sizes in the Ezy-Bilt Series — can be used for making 52 models because it contains 48 parts, plus Nuts, Bolts, Clips and Instruction Book. Like all the Ezy-Bilt Sets it is attractively boxed so that models can be disassembled and packed away to be used over and over again for making further models. The parts in all sets, whether large or small, are of the same high quality and finish, guaranteed by Ezy-Bilt Ltd.

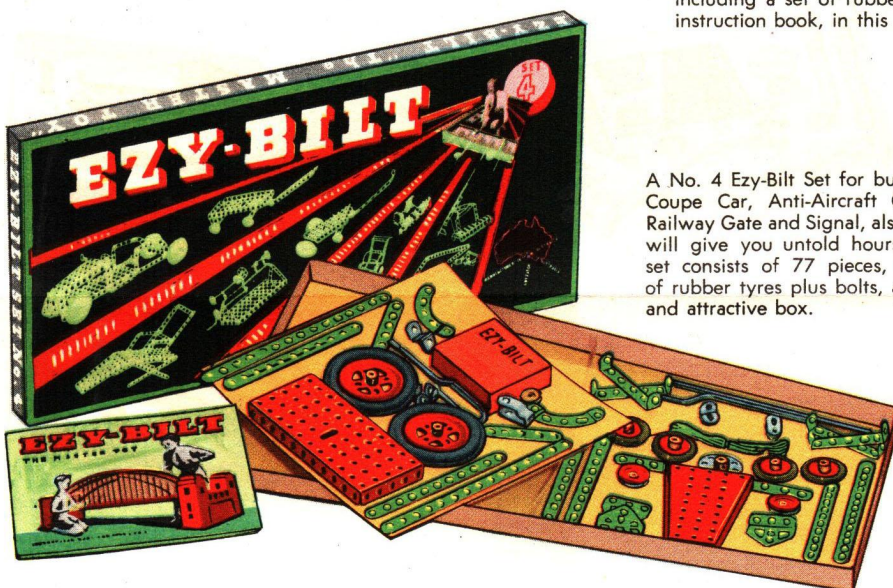

There are hours of thrilling pleasure in building the many working models with

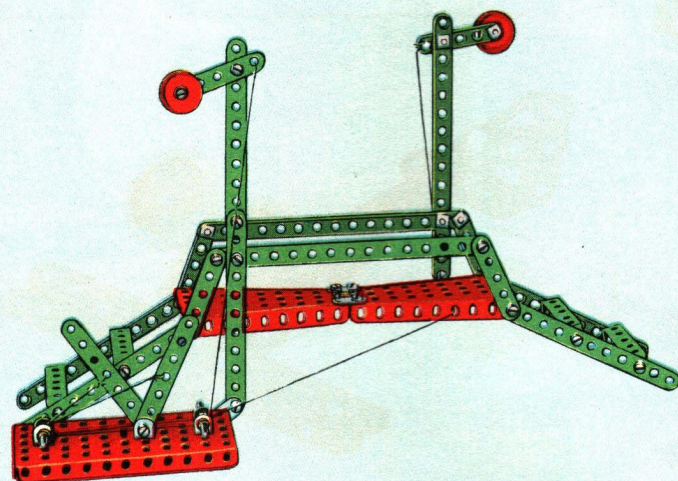

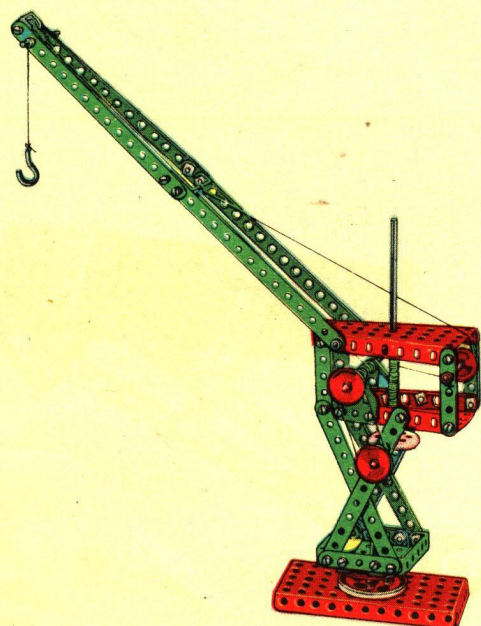

EZY-BILT

A No. 4 Ezy-Bilt Set for building Flying-Foxes, Coupe Car, Anti-Aircraft Gun, Flying Boats, Railway Gate and Signal, also 114 other models, will give you untold hours of pleasure. This set consists of 77 pieces, including two sets of rubber tyres plus bolts, an instruction book, and attractive box.

Just fancy, a Jib Crane that rotates on its own turntable, raises or lowers the jib, can be used for loading trucks and trains. Make with parts from a No. 5 Ezy-Bilt Set.

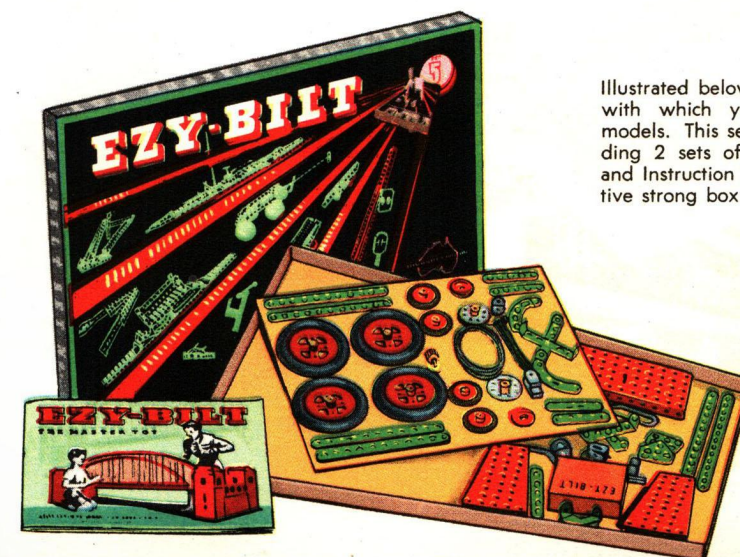

A Footbridge and Signals. A system of pulleys actually makes the signals work. Ideal for your train system. Another model from the No. 5 Set.

The Fire-Watcher's Lookout illustrated above is one of the true-to-life models any boy can make with a No. 4 Ezy-Bilt Set, and the aid of the fully illustrated instruction book packed with every Ezy-Bilt Construction Set.

There is no toy like the one you can build yourself . . . toys that contain, in model form, movements and mechanical devices used in real engineering. Can you imagine anything more exciting than being able to move levers and set the model working after you have built it. This is the greatest thrill for all model builders. This thrill, and a thousand others, is yours when an Ezy-Bilt Construction Set is one of your valued possessions. Every Ezy-Bilt Set contains all the parts necessary to build any of the models, applicable to the set, as illustrated in the Instruction Book. Should your plans demand more parts than are supplied with a set, duplicates of any Ezy-Bilt Components can be bought from any Ezy-Bilt dealer.

Illustrated below is the Ezy-Bilt No. 5 Set with which you can build 164 great models. This set contains 97 pieces, including 2 sets of Rubber Tyres, plus Bolts and Instruction Book. Packed in an attractive strong box.
