Portalkran

Gordon Nr. 10

## *Gordon*-Metallbaukasten Nr. 10

### Einführung in den *Gordon*-Metallbaukasten

Der *Gordon*-Metallbaukasten findet vielseitige Verwendbarkeit. Infolge seiner gediegenen Ausstattung ist er

1. Eine hervorragende Anregung für den Bastler.
2. Er weckt die evtl. vorhandenen Talente zum technischen Beruf.
3. Er schärft die Aufmerksamkeit u. den Denksport.

Der Kasten ist so konstruiert, daß man mit ihm Modelle nach den beigefügten Vorlagen bauen kann.

Als Erweiterung des Metallbaukastens *Gordon* Nr. 10 sind

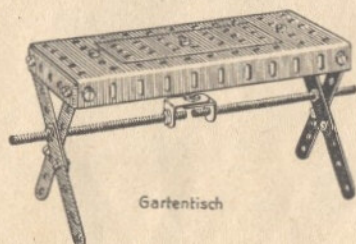

## *Gordon*-Zusatzkästen Nr. 10/1 u. 10/2

für höhere Ansprüche lieferbar. Damit können schwierigere Modelle gemäß beigefügter Vorlage gebaut werden.

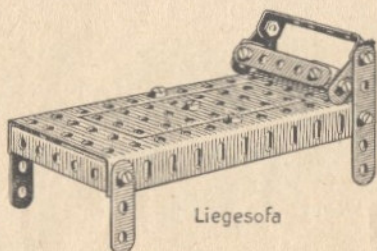

# Gordon - Metallbaukasten Nr. 10

## Teile-Verzeichnis :

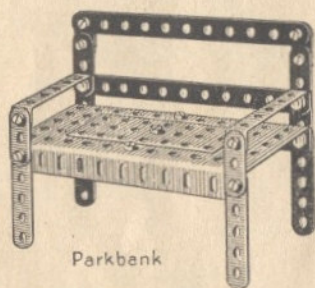

- |            |                         |             |   |
|------------|-------------------------|-------------|---|
| 1. 2 Stück | Flacheisen 11 Loch lang | 10. 2 Stück | Gewindestifte 50 mm lang                  |
| 2. 8 "     | Flacheisen 5 Loch lang  | 11. 2 "     | Gewindestifte 90 mm lang                  |
| 3. 8 "     | Flacheisen 3 Loch lang  | 12. 4 "     | Schnurräder 26 mm $\varnothing$ mit Gummi |
| 4. 1 "     | Grundplatte 11 x 5      | 13. 1 "     | Kurbel (klein)                            |
| 5. 1 "     | Grundplatte 7 x 3       | 14. 1 "     | Schraubenschlüssel                        |
| 6. 8 "     | Verbindungswinkel       | 15. 1 "     | Schraubenzieher                           |
| 7. 8 "     | Laschen                 | 16. 2 "     | Winkelbänder                              |
| 8. 32 "    | Schrauben               | 17. 1 "     | Lochscheiben ohne Stelling                |
| 9. 32 "    | Muttern                 |             |   |
