

ALUMINIUM CONSTRUCTION SET I. (2)

U.S.A.

TYPE	Simple Engineering
HOLE DIAMETER	HOLE SPACING
SETS IN SYSTEM	Appears to be one only
DIFFERENT PARTS	8
COLOUR	Aluminium
FIXING METHOD	Nut and bolt
MOTORS	None
PERIOD	Probably 1950 's
MANUFACTURER	Roberts Enterprises, 70-60 Broadway Jackson Heights, New York, U.S.A.
COMMENTS	This appears to have some link with the ALUMINIUM CONSTRUCTION OUTFIT of England, the parts having square cut ends to the Strips, though it does appear to have smaller hole size. Unlike the UK system it seems to have only one Set. There are also less parts.

MATERIAL SUPPLIED BY: B.Kamman via Clyde.T.Suttle.

SWING

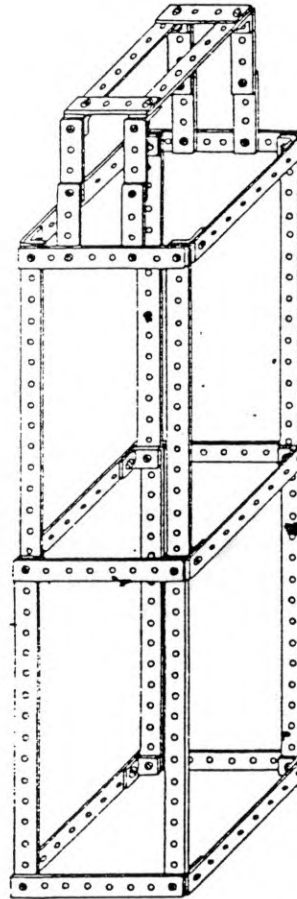

THE ALUMINIUM CONSTRUCTION SET is a carefully designed and engineered toy. It is made of the finest aluminum alloy used in building our giant airplanes. It is as strong as steel yet will not rust. The toys shown in this pamphlet are just a few which can be constructed with this set. If you use your imagination you can think of many new ones to build and have fun with. If you find that you want to construct more complicated designs than is possible with the number of parts contained in this set you can send for additional parts as desired.

PRICES

Part Number	Description	Number of Pieces	Price
1	8 inch piece	1	\$ .10
