

## PRIMUS ACCUMULATOR

Price 21/-

This Primus Accumulator of four volts 20 amp. hours, is strongly recommended for use with the Primus Electric Motor.

## PRIMUS ELECTRIC MOTOR

Price 16/-

The Primus Electric Motor is exceedingly powerful, it is strongly built and consumes a minimum of current. It is fitted with a reversing switch which enables the Motor to be run in both directions. It will satisfactorily operate any working Primus Model.

## 4.5 VOLT DRY BATTERY

Price 6/-

This Battery will give excellent results with the Primus Electric Motor and it is strongly recommended to those who do not wish to go to the expense of an Accumulator.

# Be sure and ask for **PRIMUS** The Wood and Metal Constructional Toy

There is no Toy like Primus for it enables Boys to build Splendid Models, perfect duplicates in miniature of the real thing with wooden parts where wood should be used, and metal parts in their correct position. All standard Primus Outfits are supplied complete with a handsomely illustrated Instruction Manual.

Primus Wood Parts Outfit	37/6		

## THE BIG WHEEL OUTFIT, 17s. 6d.

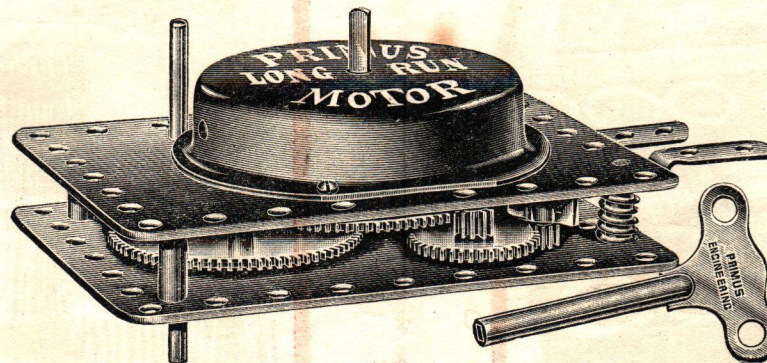

This Outfit is designed for the building of Wheels and consists of a number of patented parts which are intended for use with any of the Standard Primus Sets. The parts contained in each Outfit build Wheels of 4-ins., 6-ins. and 8-ins. in diameter, and a special Instruction Book showing some really fine models built with the aid of the Big Wheel Set accompanies each Outfit.

## PRIMUS MOTOR CHASSIS OUTFIT, 27s. 6d.

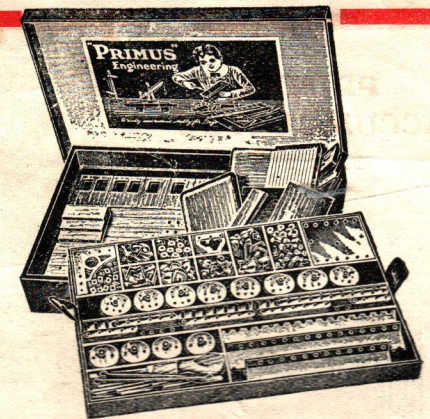

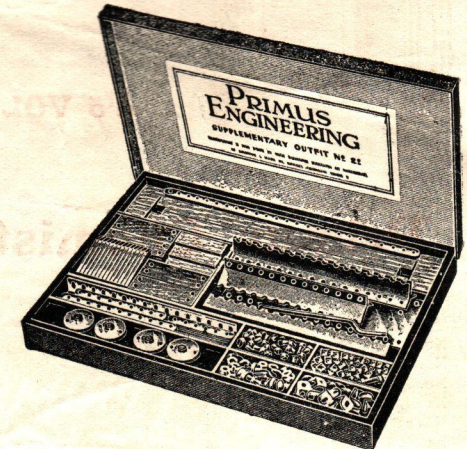

The Motor Chassis Outfit is a comparatively recent addition to the Primus line and it has thoroughly caught on. With the aid of a Primus Engineering Outfit or Primus Engineering Parts, a boy can build beautiful Coupés, Touring Cars, Caravans, Lorries, etc.

## PRIMUS CLOCKWORK MOTOR, 15s. 6d.

Boys! Here is the very latest thing in Clockwork Motors. It is the strongest, longest running Motor of its kind on the market to-day. Its special design enables it to be built into any working Primus Model, thereby supplying the necessary motive power. Approximately speaking the Primus Clockwork will run five times as long as any other Clockwork Motor. Ask your Dealer to show you one of these fine motors. You will recognise it immediately by its bright red dome which covers the strong, specially tempered spring with which the Motor is fitted.

Primus Clockwork Motor, 15s. 6d.
