

STIHL®

P 8 06

Die in dieser Anleitung abgebildeten Modelle sind lediglich Beispiele für die vielen Möglichkeiten des über 300 Teile umfassenden STIHL Metallbaukastens.

Planen, konstruieren, bauen – lassen Sie Ihrer Kreativität freien Lauf und nutzen Sie die Vielfalt die dieses System bietet.

The models in these instructions are merely examples of the many capabilities of the STIHL engineering construction kit, which is made up of over 300 parts.

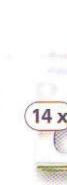

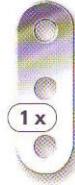

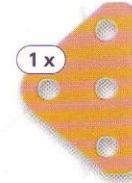

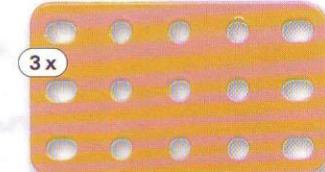

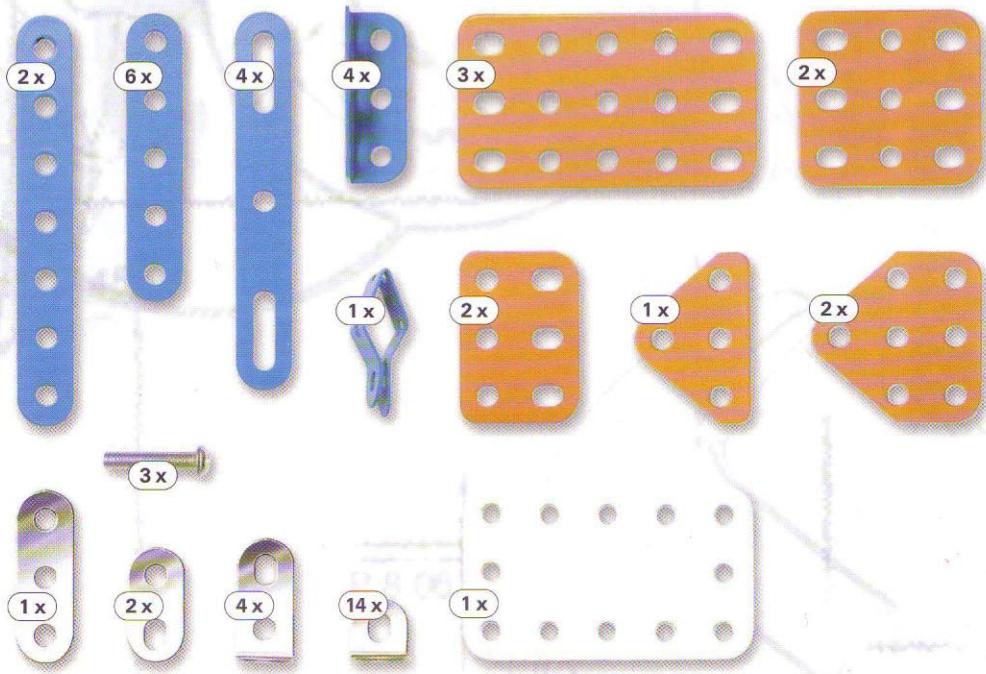

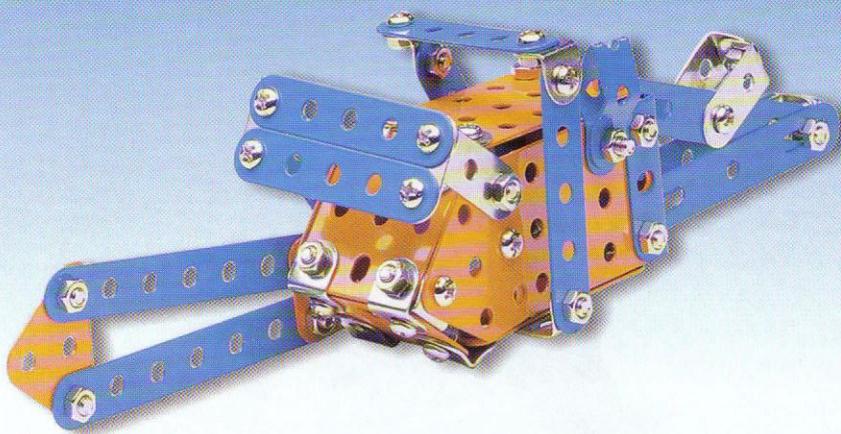

Plan, design, build – give your creativity a free rein and make use of the diversity which this system has to offer.

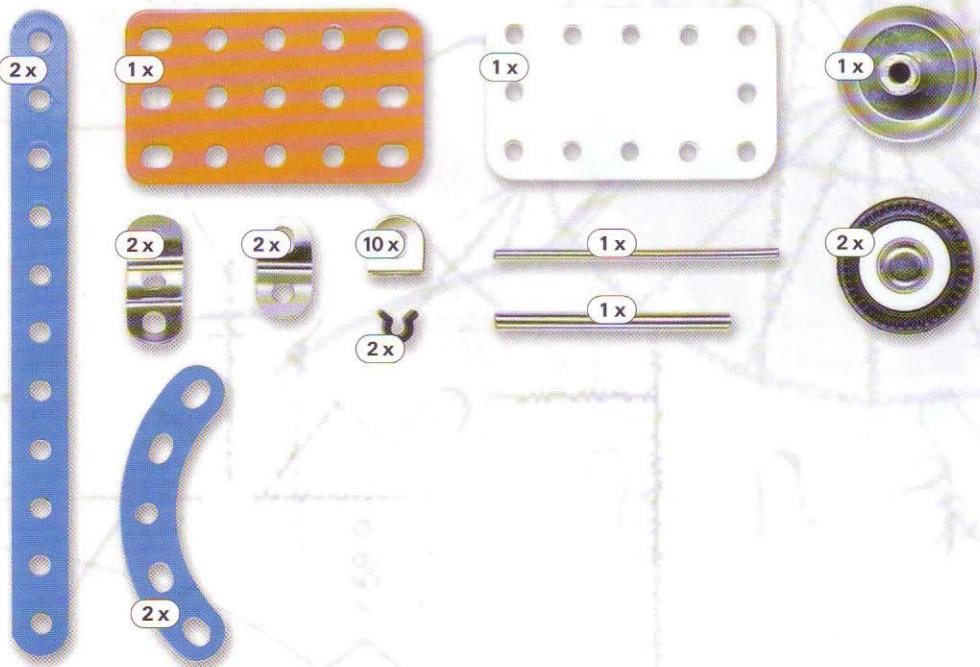

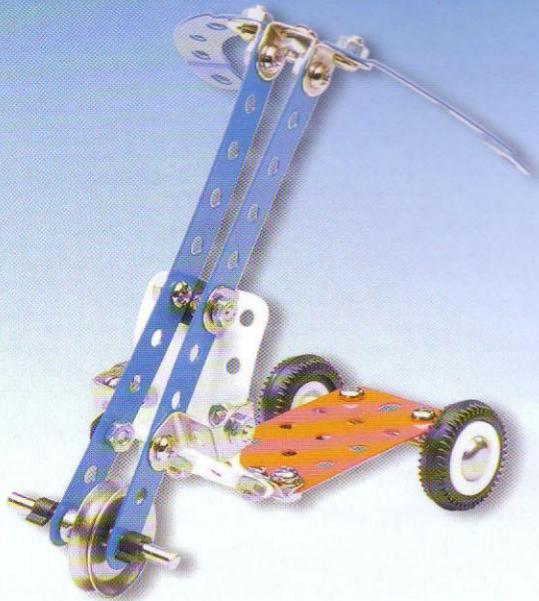

Les modèles représentés dans ce mode d'emploi sont de simples exemples des nombreuses possibilités qu'offre le jeu de construction en métal STIHL, qui comporte plus de 300 pièces.

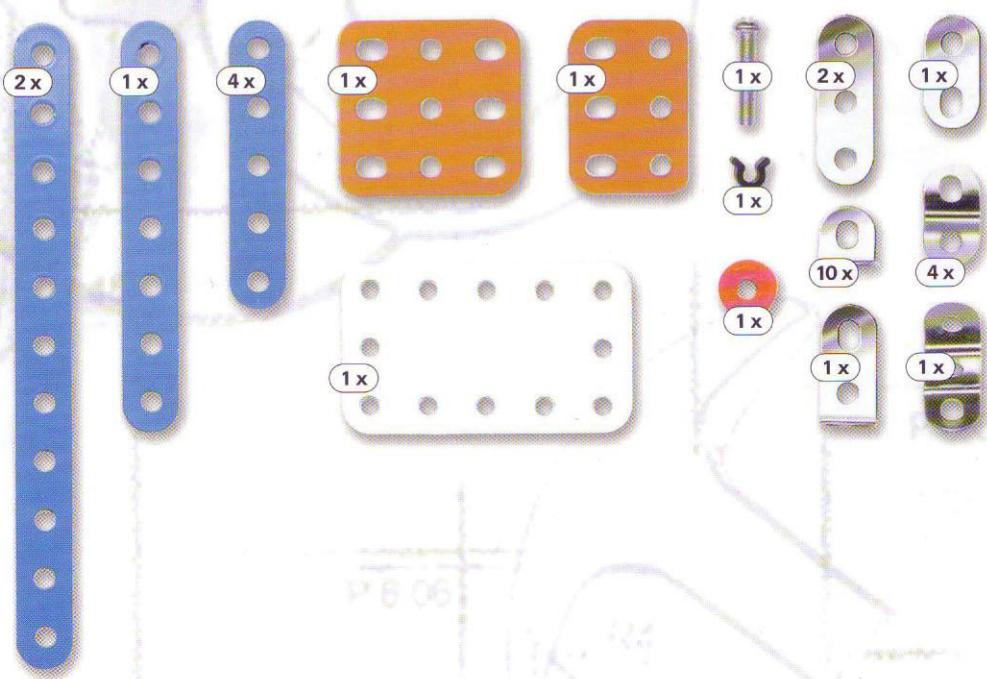

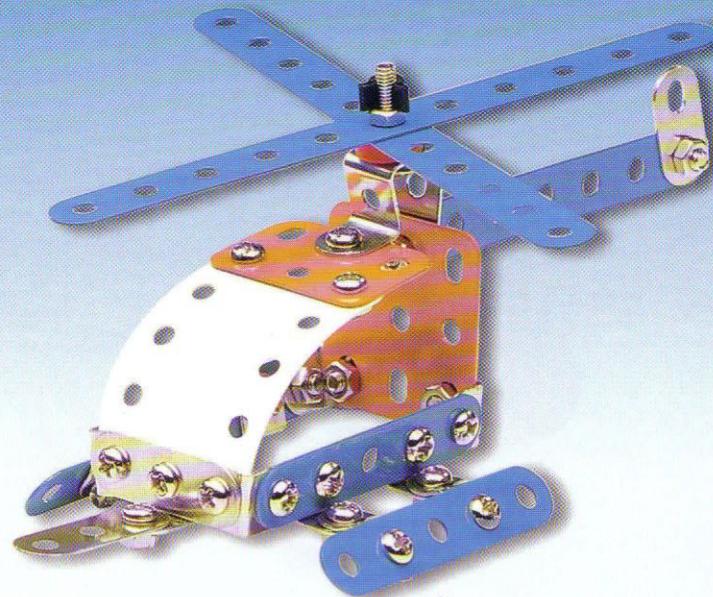

Planifiez et construisez à cœur joie – laissez libre cours à votre créativité et profitez de la grande diversité de ce système.

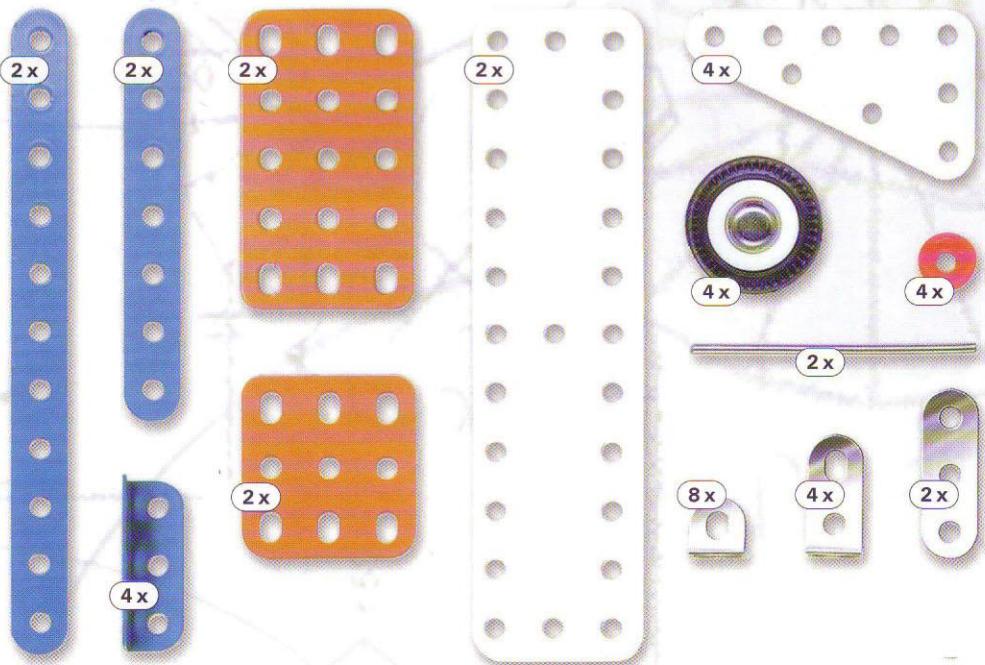

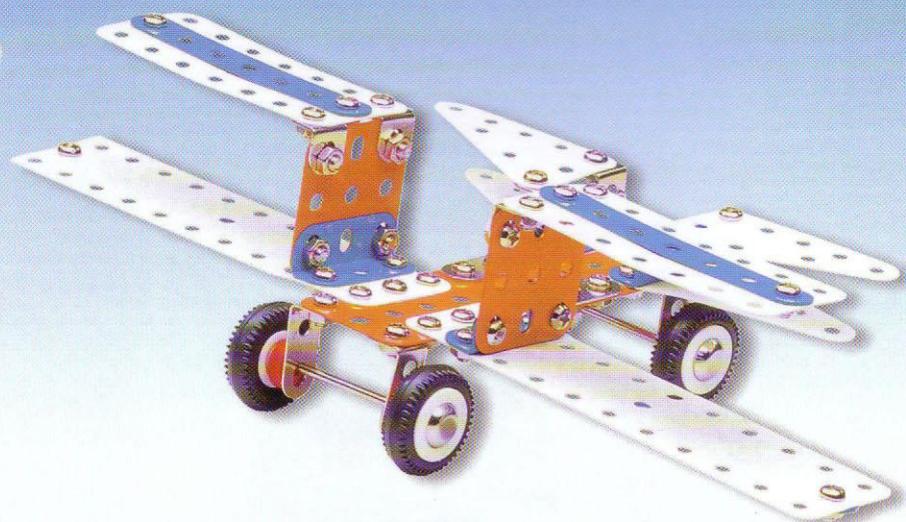

Los modelos ilustrados en estas páginas solamente deben ser considerados como ejemplo de la gran diversidad de posibilidades que ofrece la caja para construcciones metálicas STIHL con sus más de 300 piezas.

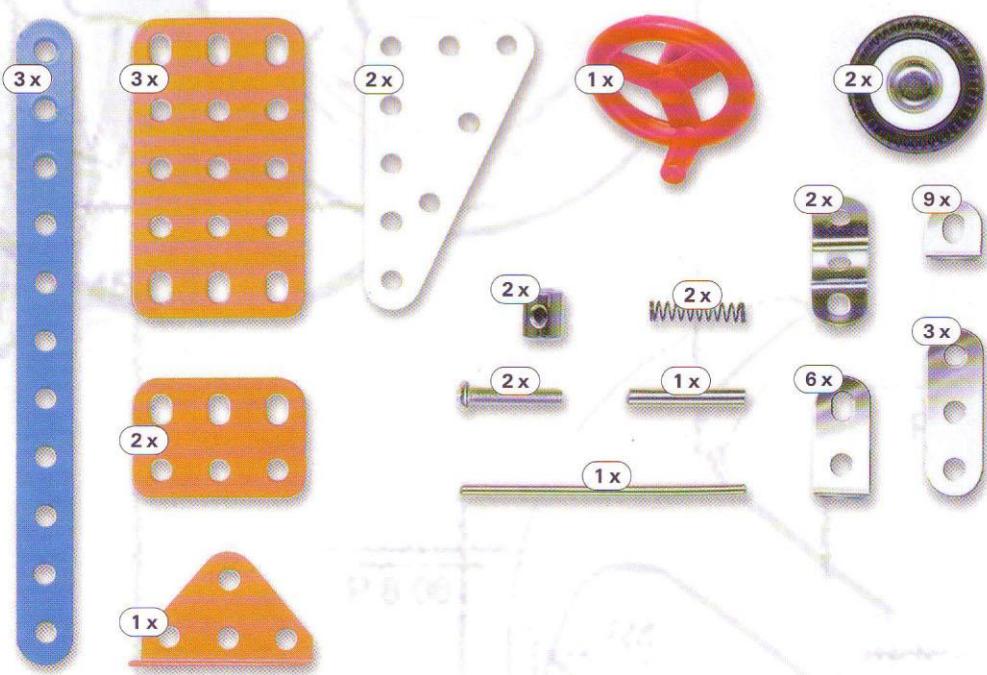

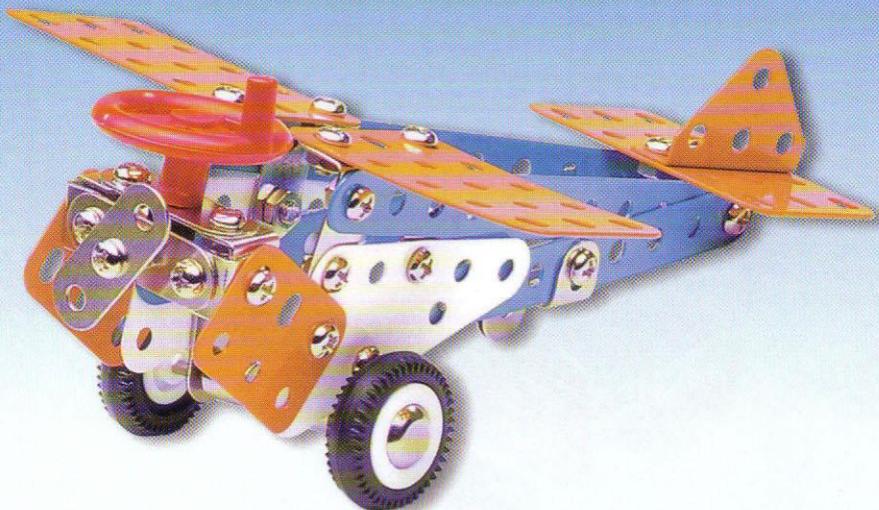

Planificar, proyectar, construir – déjese guiar por su creatividad y fantasía y aprovechese de la amplia gama de posibilidades que le ofrece este fantástico sistema.
